**Planting Plan**

Careful planning and site preparation are required for best results. Developing a planting plan before you order your trees will help eliminate the possibility of trees dying due to human error. While building this plan you will find the proper location for planting, the best species for your property, the distance needed between rows, and the total number of trees and shrubs needed to complete the project.

Evergreens			
Item # - Species	#/Lots	Cost	Total
030 - Eastern Red Cedar		\$40.00	
031 - Pine, Ponderosa		\$40.00	
032 - Rocky Mountain Juniper		\$40.00	
033 - Spruce, Colorado		\$40.00	
<b>Evergreen Total:</b>
